1	Provided that water is a natural resource, what Government regulatory mechanisms are in place to monitor private water supply in Indian cities?	Private water supply through Tankers is not being monitored by any Government Agency. However, Trade Licence is being issued by BBMP in B'lore City, under Health Department Wing.
2	Which Government body/nodal agency regulates private water supply in Bangalore, for instance? Is this a State Government body/agency?	Same as above.
